DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 25-26 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Catelli et al.

Catelli et al show a mist with gaseous chlorine dioxide and an inert gas of nitrogen. See col. 1, lines 10-23; col. 2, lines 50-55; col. 6, lines 20-45; and col. 7, and

lines 40-65. The reference does not appear to show the concentration amounts as set forth by applicants' claim 26.

If not shown, then the claims would be considered an obvious modification thereof, because effectiveness of the sterilization properties of the product mist are in direct proportion to the concentration of the sterilizing agent contained in the mist.

Allowable Subject Matter

Claims 35-50 are allowed.
